DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 4, 5, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Ybanez (US 6,193,293). Ybanez discloses a carrier device that may hold a ball and be used on a wheeled vehicle with a main strap member 14/16 having opposed surfaces joined together by strap 18 to form an enlarged central loop and a pair of opposed auxiliary loops 40a and 40b extending from diametrically opposed spaced surfaces of the central loop. These auxiliary loops could be slipped over opposite ends of the handlebars of the wheeled vehicle. A plurality of sling strap members 18/20/22/24 have opposed ends connected to diametrically opposed surfaces on the central loop portion of the main strap member (figure 1; figure 4).

With respect to claim 3, there are at least three sling strap members 18/20/22/24 (figure 1).

With respect to claim 4, the strap members are fabricated from flexible material (column 3, lines 6-9).

With respect to claim 5, the strap members can be fabricated from elastic, which is a resilient material (column 3, lines 6-9).

With respect to claim 6, the strap members can be fabricated from elastic, which is a flexible and resilient material (column 3, lines 6-9).

Allowable Subject Matter

3. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
